

Accelera SOLUTIONS

AI-FIRST · FRONTIER-POSITIONED

Accelerate the frontier.

AI-first federal engineering. Twenty-four years inside the boundary, delivering cloud, cybersecurity, DevSecOps, and authorized agentic AI for DoD, civilian, and intelligence customers.

24

YEARS FEDERAL ENGINEERING

DHA CLINICIANS WORLDWIDE

Infrastructure modernization

01 · DIFFERENTIATORS

ATO-ready AI inside the IL4 boundary

Authorized agentic AI in production behind federal authorization boundaries. Identity-attributed audit, human-in-the-loop on every state change.

Agent-IAM under Zero Trust

Every production agent runs through the existing IAM control plane with a scoped identity, least-privilege permissions, and a per-action audit trail traceable to the delegating human.

Twenty-four years of federal engineering

Continuous past performance since 2002. Multi-program footprint at Army HRA, DHS/CISA, DHA, FBI, and the U.S. Navy.

Compliance-floor maturity

CMMI-SVC Level 3, ISO 9001:2015, CMMC Level 2 (June 2026), NAVSEA O4RP approved QMS for shipboard / submarine work.

02 · PAST PERFORMANCE

Army Civilian HR Agency

SCOPE Enterprise cloud modernization
SCALE 300,000 civilian Army personnel
OUTCOME Authority-to-operate cloud platform under DoD policy

Defense Health Agency

SCOPE Infrastructure modernization
SCALE 55,000 clinicians worldwide
OUTCOME Improved performance across the clinical care platform

DHS / CISA

SCOPE Cloud-native Zero Trust authentication framework
SCALE Civilian agency identity boundary
OUTCOME Designed and implemented in production

FBI Information Assurance Unit

SCOPE iLab DevSecOps Lab as a Service
SCALE 300+ unclassified / Secret / Top Secret applications
OUTCOME Centralized enterprise DevSecOps on Azure Gov + Azure Secret

03 · CAPABILITIES

- AGENTIC AI ENGINEERING
- CLOUD MODERNIZATION
- CYBERSECURITY
- DEVSECOPS
- ZERO TRUST
- IAM
- SYSTEMS ENGINEERING
- SOFTWARE DEVELOPMENT
- DATA ANALYTICS
- SERVICENOW
