

THE SEWP VI CONTRACT OVERVIEW

The NASA SEWP (Solutions for Enterprise-Wide Procurement) is a multi-award Government-Wide Acquisition Contract (GWAC) that provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. The SEWP vehicle represents acquisition innovation within the Federal Government. Technology is ever-evolving and for that reason SEWP's processes enable Contract Holders to add new commercial technology and IT services to the contract daily, as requested by customers.

ACCELERA SEWP CONTRACTS

Period of Performance: November 1, 2026 - October 31, 2036
Fee: 0.34%

Contract Types: FFP · T&M · LH · Commercial Hybrid
NAICS: 541519 / 541512

Enterprise-wide ITC/AV Service Solutions

Scope: Large-scale requirements that span multiple departments, locations, customers, or field offices of an agency. Includes enterprise network and application services, ITSM, enterprise cyber and cloud, innovation, data analytics, digital multimedia, and ancillary support that is integral to the service.

Threshold restrictions:

None

CATEGORY C · 80TECH26D0299

Mission / Program ITC/AV Service Solutions

Scope: Customized solutions at a mission or program level. Includes innovation, data analytics, application services, cyber, cloud, multimedia, IT operations / help desk, network, database, in-scope training, and ancillary support integral to the effort.

Threshold restrictions:

Year 1: \$2 million per order (inclusive of options)

Year 2: \$10 million per order

ABOUT ACCELERA SOLUTIONS

Accelera is a Small Disadvantaged Business information technology contractor supporting Federal customers with virtualization, mobility, and cloud solutions. Accelera has supported Federal missions since 2002, delivering the technical resources and solutions needed to modernize infrastructure and meet evolving industry and Federal IT standards. With over a decade of SEWP experience, Accelera has earned strong Program Performance ratings in customer satisfaction and on-time delivery. Accelera's knowledgeable and experienced SEWP VI Program team continues to deliver that same level of support.

The Accelera team is trained in SEWP policies and practices and is available to assist customers in developing requirements, obtaining quotes, and using the SEWP Program for efficient, best value procurement.

ACCELERA PROGRAM SUPPORT

Name / team	Role	Email	Phone

ABOUT SEWP & FAIR OPPORTUNITY

The SEWP Program operates under Fair Opportunity regulations as defined in FAR 16.505(b) which provides contract holders with opportunity to be considered for each order in excess of \$10,000. Agency Contracting Officers are able to direct an opportunity as a "set-aside" to various socio-economic categories. Using the NASA SEWP Quote Request Tool (QRT) at www.sewp.nasa.gov is the recommended method to meet Fair Opportunity and to route the request to the correct holders.

HOW TO OBTAIN A QUOTE

1 Define the requirement

Identify the end-user's requirements for hardware, software, or services and determine whether the need is enterprise-wide (Category B, 80TECH26D1316) or mission/program-level (Category C, 80TECH26D0299). If scope is unclear, Accelera or the SEWP Program office can provide guidance.

2 Request the quote through SEWP's Quote Request Tool (QRT) or Accelera sales

Post an RFQ, RFI, or Market Research Request in the SEWP QRT. Using the QRT will also ensure Fair Opportunity requirements are met. You may reach out to Accelera's SEWP team or SEWP Helpline for information and support.

3 Issue the delivery order to the SEWP PMO

After evaluating and choosing a quote, use any valid Federal delivery-order form. Send the signed order to sewporders@sewp.nasa.gov. The SEWP PMO assigns a SEWP Control Number (SCN) and forwards the order to Accelera. Accelera will begin fulfillment once an SCN is assigned.

Note: Some Agencies have special requirements for issuing IT Delivery Orders. It is the Issuing Agency's Contracting Officer's (CO's/KO's) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts. There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement offices, except as directed through their own internal policies.

NASA SEWP PROGRAM SUPPORT

The NASA SEWP VI team provides contract support and training for all participating agencies. This includes training for the use of the SEWP Quote Request Tool (QRT) and any other program-level order-routing questions.

Name / team	Role	Email	Phone
NASA SEWP Helpline	Customer support	help@sewp.nasa.gov	301-286-1478
SEWP order intake	Delivery-order routing	sewporders@sewp.nasa.gov	—
SEWP website	Program information and QRT	www.sewp.nasa.gov	—

INSTALLATION, WARRANTY AND TECHNICAL HW/SW SUPPORT

Where applicable, each OEM's services and warranty policies apply to SEWP orders. For more information, review Accelera's Terms and Conditions.

ORDER & POST-DELIVERY SUPPORT

Contact SEWPsupport@AcceleraSolutions.com or 1-800-506-0182 x5 for prompt support and resolution of any order issues. Include the delivery order number and/or the SEWP Control Number if one has been assigned.
